**Roger S. McGuire, Jr., CRMS**  
**President**

McGuire Lending Group (formerly known as Mid American Mortgage, Inc.) is a mortgage company whose focus is on long term relationships with both their clients and industry professionals. They can assist homeowners in the purchase or refinance of a new home, investment property or vacation home. They are a relationship-based mortgage company and are proud to say over 99% of their clients have come as referrals since the branch was opened. Their main goal has been to focus primarily on having a positive relationship with their clients so that they not only refer McGuire Lending Group to their friends, family and co-workers, but also use them again in their future refinances and home purchases. They strive to become a lifetime partner for homeowners as they manage the largest single asset many of us ever attain.

Since 2001, clients have selected Roger McGuire and his team as their lead financial resource because they establish lasting client relationships rooted in honesty, integrity and service.

What that means is McGuire Lending Group will create an environment based upon open communication with the primary focus on the intentions, goals and challenges that matter to their clients, not 'just completing another transaction'. The clients' real benefit is the clarity and confidence knowing that they will meet their long- and short-term financial goals.

Roger opened up their South Florida branch in 2014 and moved to the Sarasota/Manatee area from Chicago in January 2015 with his wife of almost 12 years and his boys (now 5 and 7). McGuire Lending Group still maintains their office in Illinois and are in the process of getting licensed in almost 30 states.
